

CHILDCARE & EDUCATION

SHOWCASE

MAKE IT COVENTRY COLLEGE

Childcare and Education is a rewarding career, and the industry needs highly skilled, enthusiastic people, who can provide exceptional care and learning opportunities to help our future generations thrive.

If you have a passion for working with children and young people, our programmes will provide you with the skills, knowledge and experience to help you on your journey.

FACILITIES & TRAINING

- ▶ Our curriculum is creative and combines practical and theoretical teaching.
- ▶ We have a large range of resources linked to education and early years including; interactive dolls, first aid dummies, medical manikin and a selection of creative resources.
- ▶ You'll develop skills in supporting child development, health, wellbeing and creativity in our mock childcare setting.

LEARN IN A
CHILDCARE
SETTING

This programme has provided me with the confidence to work with children, as well as giving me the experience of working in an early year setting. The tutors have been there to help me every step of the way.

WHAT TO EXPECT

AREAS OF CURRICULUM:

- ▶ Safeguarding
- ▶ Caring for Children
- ▶ Early Years Practitioner

OPPORTUNITIES:

All our courses include placement where learners are given the chance to work in a setting developing their competences. The teachers visit the settings and observe their practice, providing them with feedback to help them develop and improve. This has meant that we have built up some good professional relationships with local employees.
